APEX

REACH COMPLIANT INK? YES. THIS IS HAPPENING.

APEX is a new line of premium tattoo pigments designed specifically for the EU marketplace.* The ink base complies with EU regulations and restrictions governing tattoo pigments. For the past three years, Eternal Ink has researched, tested, formulated and reformulated hundreds of test samples to achieve a tattoo ink base suitable for tattoo artists while meeting EU Regulations. Our APEX inks perform, mix, tattoo, and heal exactly like Eternal Ink's existing global tattoo pigments. The APEX line of inks have a distinct brand and utilize the multi-language peel-back label.

*The APEX ink formula is manufactured for the EU and will only be marketed to the EU.

NEW COLOURS

Formulating a *REACH Compliant* tattoo pigment is a monumental accomplishment. However, for an artist, it will always be about the colours. Presented here are our initial offering of 24 pigments for the EU marketplace. This range of hues will provide EU artists with a full palette of primary, secondary, and tertiary hues.
